

Windmill

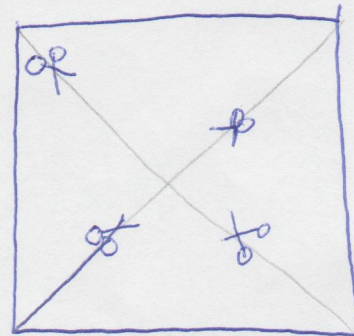

Get a square of nice paper

Use a pencil and ruler

Draw a line from one point to opposite point, Repeat

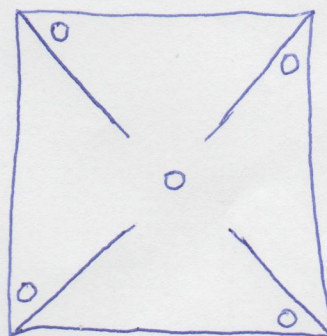

Use scissors to cut halfway/ a bit more towards the middle from each point

Use a hole punch to punch a hole in the point to the left of each cut.

Use a sharp pencil to make a hole in the middle

bend a plastic straw, put it through the middle hole,

put it through one of the other holes and stick

put it through the next hole and stick

put it through the next hole and stick

put it through the last hole and stick

(Optional - decorate with pens or stickers)
